Jane Henney, MD
Commissioner
Food and Drug Administration
5600 Fishers lane, Room 1417
Rockville, MD 20857

Dear Dr. Henney:

I am one who is in favor of the FDA promptly approving claims filed for Saw Palmetto and the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

It is time nutritional supplements that have proved their value be labeled as such.

Thank you for your attention to this matter.

Sincerely,

Audrey Grudzien
P O Box 75
Glengary, WV 25421
